At the bottom of the form are two buttons: "Clear" and "Submit".

Reset password

Login

Homepage

The screenshot shows a Microsoft Internet Explorer browser window displaying the VJTI Student Dashboard. The title bar reads "VJTI Dashboard". The main content area features a teal header with the "VJTI Student Dashboard" logo and a "Logout" link. Below the header is a navigation menu with tabs: Home, Profile, Courses, Documents, Events, Forums, Blogs, and Email. The "Home" tab is selected.

The main content area displays a welcome message "Welcome Nidhi!" and a "Notifications:" section listing recent activity from other users:

- Jinal has uploaded an assignment for the course : Artificial Intelligence.
- Dipen has commented on your post : Android versus iphone.
- Sharmin has commented on your post : Android versus iphone.
- Dipen has replied to your thread : Which cell phone is better?.
- Jinal has replied to the thread : Textbook for C++.
- Gayatri has replied to the thread : What database would be best to use with XML?.
- Gayatri has replied to your thread : Which cell phone is better?.
- Gayatri has replied to the thread : Textbook for C++.
- Sharmin has replied to your thread : Which cell phone is

To the right of the notifications, there are two sidebar sections: "Recent Posts" and "Recent Discussions".

The "Recent Posts" sidebar lists:

- Cellphones Are Great for Sharing Photos - and Bacteria
- Android versus iphone

The "Recent Discussions" sidebar lists:

- Which cell phone is better?
- Textbook for C++
- What database would be best to use with XML?

At the bottom of the dashboard, there is a taskbar showing file icons for "dashboard.rar", "dash.sql", and "Cancelled". The system tray shows the date and time as "3/1/2013 23:24".

Profile

The screenshot shows a web browser window displaying a student profile page from a local host. The URL in the address bar is `localhost/dashboard/profile.php?user_id=101081018`. The page has a dark teal header with the VJTI logo and "Student Dashboard". A navigation menu at the top includes Home, Profile (which is selected), Courses, Documents, Events, Forums, Blogs, and Email. On the left, a sidebar titled "User Profile" lists personal information: ID No: 101081018, First name: Nidhi, Last name: Shah, Gender: Female, Profession: Student, Branch: I.T., and Year: T.Y. Below this is a "Change Password" button. To the right, there's a search bar for "Search User By ID" and a "Things To Do" section with links for creating events, viewing events, assignments, results, documents, blog posts, and discussions. At the bottom, there's an "Upcoming Deadlines" section showing an Android workshop from 2013-03-01 to 2013-03-09. The taskbar at the bottom shows several open files: dashboard.rar, dash.sql, and another dashboard.rar file. The system tray indicates the date as 3/1/2013 and the time as 23:28.

Personal Documents

The screenshot shows a web browser window with the URL localhost/dashboard/documents/documents_personal.php. The page title is "Personal Documents". The header includes the VJTI logo and a "Logout" link. A navigation bar with tabs for Home, Profile, Courses, Documents (which is active), Events, Forums, Blogs, and Email. The main content area is titled "My Documents" and contains two tabs: "Personal Documents" (selected) and "Shared Documents". Under "Personal Documents", there are two entries:

- prototype**:
Added on 2013-03-01 03:55:19
Description:
UML notes
Actions: Download, Upload Revision, Share
- UML**:
Added on 2013-03-01 03:36:06
Description:
UML notes
Actions: Download, Upload Revision, Share

A large blue button at the bottom says "Upload a new Document". To the right, there is a sidebar with links for "Search User By ID", "Things To Do" (Create an Event, View Events, View Assignments, View Results, Upload a Document, Write a Blog Post, Start a Discussion), and "Upcoming Deadlines" (Android workshop, From: 2013-03-01, To: 2013-03-09). The taskbar at the bottom shows several open files: dashboard.rar, dash.sql, and dashboard.rar (Cancelled). The system tray shows the date as 3/1/2013 and the time as 23:29.

Shared Documents

The screenshot shows a web browser window with the following details:

- Title Bar:** Shows the title "Shared Documents" and the URL "localhost/dashboard/documents/documents_shared.php".
- Address Bar:** Displays "localhost/dashboard/documents/documents_shared.php".
- Toolbar:** Includes standard browser icons for back, forward, search, and refresh.
- Page Content:**
 - VJTI Student Dashboard:** Logo and "Logout" link.
 - Navigation Bar:** Home, Profile, Courses, **Documents**, Events, Forums, Blogs, Email.
 - Main Area:** Title "My Documents".
 - Document Preview:** "Credit Suisse competition rules" (Added on 2013-03-01 03:34:49). Buttons: Download, Upload Revision, Share.
 - Upload Button:** "Upload a new Document".
 - Search:** "Search User By ID" input field.
 - Things To Do:** List of actions:
 - Create an Event
 - View Events
 - View Assignments
 - View Results
 - Upload a Document
 - Write a Blog Post
 - Start a Discussion
 - Upcoming Deadlines:** List of events:
 - Android workshop
From : 2013-03-01
To : 2013-03-09
- Taskbar:** Shows file icons for "dashboard.rar", "dash.sql", and "dashboard.rar Cancelled".
- System Tray:** Shows icons for battery, signal, volume, and date/time (23:29, 3/1/2013).

Upload a document

The screenshot shows a web browser window with the URL localhost/dashboard/documents/upload_doc.php. The page title is "VJTI Student Dashboard". The main content area is titled "My Documents" and contains two tabs: "Personal Documents" (selected) and "Shared Documents". A modal dialog box titled "Upload" is open, prompting for "File Name:" (with a text input field), "Filename:" (with a file selection button "Choose File" and a message "No file chosen"), and "File Description:" (with a text input field). Below these fields is a blue "Upload" button. To the right of the main content, there is a sidebar titled "Things To Do" with links: "Create an Event", "View Events", "View Assignments", "View Results", "Upload a Document" (which is currently being processed, indicated by a progress bar), "Write a Blog Post", and "Start a Discussion". Below this is a section titled "Upcoming Deadlines" with one item: "Android workshop" (From: 2013-03-01, To: 2013-03-09). The browser's address bar shows multiple tabs, and the taskbar at the bottom includes icons for File Explorer, Control Panel, Google Chrome, Microsoft Word, Microsoft Excel, and Microsoft PowerPoint.

Forums

The screenshot shows the 'Recent Discussions' section of the forums. It displays three topics:

Topic	Author	Date	Replies	Category
Which cell phone is better?	Nidhi	2013-02-26 10:23:49	3	Electronics
Textbook for C++	Gayatri	2013-02-24 12:19:00	6	Other
What database would be best to use with XML?	Sharmin	2013-02-22 09:14:00	7	Databases

A 'Start a Discussion' button is located at the bottom left of the list.

On the right side, there is a sidebar titled 'Categories' with links to Databases, Electronics, Networks, Other, Technology, and Web Design. Below the categories is a 'Recent Comments' section listing the latest comments from users Nidhi, Sharmin, Dipen, Jinal, and Gayatri.

The screenshot shows the 'Electronics' category page. It displays one topic:

Topic	Author	Date	Replies
Which cell phone is better?	Nidhi	2013-02-26 10:23:49	3

A 'Start a Discussion' button is located at the bottom left of the list.

On the right side, there is a sidebar titled 'Categories' with links to Databases, Electronics, Networks, Other, Technology, and Web Design. Below the categories is a 'Recent Comments' section listing the latest comments from users Nidhi, Sharmin, Dipen, Jinal, and Gayatri.

View a thread

The screenshot shows a web browser window with the following details:

- Title Bar:** Shows the URL `localhost/dashboard/forum/get_topic.php?thread_id=13`.
- Toolbar:** Includes links to "photoshop", "nosh", "tgmc", "dashboard", "web app design", "Classic Planet PDF - ...", "Adobe PDF Guide: H...", "I can't find my site i...", "Take This Lollipop", and "PHOTOSHOP I...".
- VJTI Student Dashboard Header:** Features the VJTI logo and "Student Dashboard".
- Navigation Bar:** Includes links for Home, Profile, Courses, Documents, Events, Forums (highlighted), Blogs, and Email.
- Main Content Area:** Displays the title "Which cell phone is better?" and a post by "Nidhi" from 2013-02-26 at 10:23:49. The post asks, "I am confused what cell phone to buy. Xperia miro or tipo?? Any suggestions?"
- Comments Section:** Shows three comments:
 - Sharmin: Get xperia Go. Its very sturdy. (Posted on 2013-02-26 10:25:13)
 - Gayatri: I have Tipo. Its a really good phone and the price is reasonable. (Posted on 2013-02-26 10:27:30)
 - Dipen: Why not get Samsung galaxy 2? (Posted on 2013-02-26 10:32:40)
- Buttons:** "Reply" and "Go Back".
- Right Sidebar:** "Categories" section with links to Databases, Electronics, Networks, Other, Technology, and Web Design. "Recent Comments" section listing interactions between Nidhi, Sharmin, Dipen, Jinal, and Gavatri.
- Taskbar:** Shows file icons for "dashboard.rar", "dash.sql", and "dashboard.rar Cancelled". It also displays system status icons (Wi-Fi, battery, volume) and the date/time (23:30, 3/1/2013).

Blogs

The screenshot shows the 'Blogs' section of the VJTI Student Dashboard. The main content area displays a table of 'Recent Posts' with columns for Title, Author, and Date. Two posts are listed:

Title	Author	Date
Cellphones Are Great for Sharing Photos - and Bacteria	Nidhi	2013-02-28 07:58:55
Android versus iphone	Nidhi	2013-02-25 10:51:50

A 'Create a Post' button is located below the table. To the right, there is a sidebar titled 'Popular Tags' listing 'cell phones', 'android', 'iphone', 'bacteria', and 'sharing'. Below that is a search bar labeled 'Search Posts by Tag'. A 'Recent Comments' section shows three entries from users Dipen, Sharmin, and Nidhi.

The screenshot shows the 'Blogs' section of the VJTI Student Dashboard, filtered by the tag 'android'. The main content area displays a table of posts with the title 'android' above it. One post is listed:

Title	Author	Date
Android versus iphone	Nidhi	2013-02-25 10:51:50

A 'Create a Post' button is located below the table. The sidebar and recent comments section are identical to the first screenshot.

View a post

The screenshot shows a Windows desktop environment with a web browser window open. The browser title bar reads "localhost/dashboard/blog/get_post.php?post_id=1". The main content area displays a blog post titled "Android versus iphone" by Nidhi, posted on 2013-02-25 at 10:51:50. The post discusses the iPhone's integration with Twitter and Facebook. Below the post, there are sections for "Recent Comments" and "Search Posts by Tag". The browser's address bar shows several local files like "dashboard.rar" and "dash.sql". The taskbar at the bottom includes icons for File Explorer, Control Panel, Google Chrome, Word, and Photoshop.

Events

The screenshot shows the VJTI Student Dashboard interface. The top navigation bar includes links for Home, Profile, Courses, Documents, Events (which is the active tab), Forums, Blogs, and Email. On the left, there's a sidebar with 'Recent Events' and sections for 'Events created by you' and 'Events shared with you'. The 'Events created by you' section displays details for an 'Android workshop' event: Event Name: Android workshop, Event Description: Everyone *must* get a laptop, Start Date: 2013-03-01, and End Date: 2013-03-09. Below this, the 'Events shared with you' section indicates no events. A 'Create an Event' button is visible. To the right, a sidebar titled 'Things To Do' lists various actions like Create an Event, View Events, etc. An 'Upcoming Deadlines' section shows the 'Android workshop' event again. The bottom taskbar shows several open files: dashboard.rar, dash.sql, and a download progress bar for dashboard.rar.

The screenshot shows the 'Create an Event' form on the VJTI Student Dashboard. The form fields include: Name (input field), Message (richtext editor with Bold, Italic, Underline, Link buttons, and a large text area), Start Date (input field), End Date (input field), Share event with (checkbox), Students: Select branch (dropdown menu with 'None' option), Select year (dropdown menu with 'None' option), Teachers: Select department (dropdown menu with 'None' option). To the right, a sidebar titled 'Things To Do' lists various actions. An 'Upcoming Deadlines' section shows the 'Android workshop' event again. The bottom taskbar shows several open files: dashboard.rar, dash.sql, and a download progress bar for dashboard.rar.

My Courses: Student view

The screenshot shows the VJTI Student Dashboard with the 'Courses' tab selected. The main content area displays a table with one row:

Course Name	Professor
Artificial Intelligence	Jinal Thakkar

To the right of the table is a sidebar titled 'Things To Do' containing links for creating events, viewing events, assignments, results, documents, blog posts, and discussions. Below the sidebar is a section titled 'Upcoming Deadlines' listing an 'Android workshop' from March 1 to March 9, 2013.

The screenshot shows the VJTI Student Dashboard with the 'Courses' tab selected, displaying the details for the 'Artificial Intelligence' course. The course information includes:

- Course Name: Artificial Intelligence
- Branch: I.T.
- Year: T.Y.
- Syllabus: [Download File](#)

Below this is a 'Assignments' section with the following details:

- Assignment Topic: Agents
- Total marks: 50
- Evaluation Criteria: Attempt any two questions
- Deadline: 2013-02-20
- Marks Obtained: 15
- Remarks: OK

At the bottom of the assignment section are three buttons: 'Download', 'Upload Submission', and 'Check Results'.

The sidebar on the right is identical to the one in the previous screenshot, showing the 'Things To Do' and 'Upcoming Deadlines' sections.

My Courses: Teacher View

The screenshot shows the 'My Courses' section of the VJTI Student Dashboard. The main content area displays a table of courses:

Course Name	Branch	Year
Artificial Intelligence	I.T.	T.Y.
Software Project Management	I.T.	F.Y.
Database System	I.T.	B.Tech
Information Security	Computers	S.Y.

A 'Create a Course' button is located at the bottom left of this area. To the right, there is a sidebar titled 'Things To Do' containing links for creating events, viewing assignments, results, documents, and starting discussions. Below the sidebar, a section titled 'Upcoming Deadlines' is visible.

The screenshot shows the details for the 'Artificial Intelligence' course. The course information is as follows:

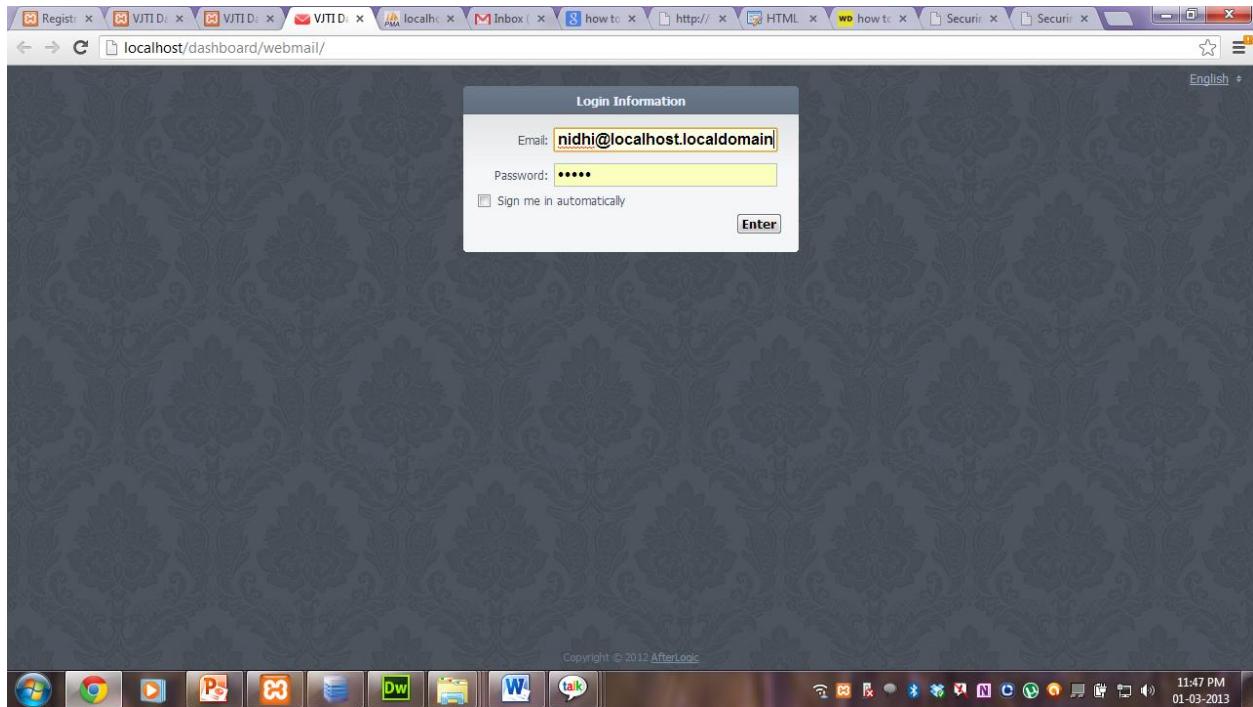

Course Name:	Artificial Intelligence
Branch:	I.T.
Year:	T.Y.
Syllabus:	Download File

An 'Update Syllabus' button is present below the syllabus link. The 'Assignments' section shows the following assignment details:

Assignment Topic:	Agents
Total marks:	50
Evaluation Criteria:	Attempt any two questions
Deadline:	2013-02-20

Buttons for 'View Submissions' and 'View Results' are located at the bottom left of the assignment section. A 'Add an Assignment' button is at the bottom center. The right sidebar contains the same 'Things To Do' links as the previous screenshot.

Email

A screenshot of a web browser window showing an email inbox. The title bar indicates the user is logged in as "sharmin@localhost.localdomain". The left sidebar shows navigation links for "Inbox (1)", "Drafts", "Sent Items", "Spam", and "Trash". The main area displays an inbox with one message: "Project SRS" from "nidhi@localhost.localdomain" at 11:32 PM, 301KB. Below it are two other messages from "nidhi@localhost.localdomain" with no subject, dated Feb 27, 1KB each. A toolbar at the top provides options like "New Message", "Check Mail", "Mark As Read", "Move To Folder", "Delete", "Spam", "Reply", "Forward", "Print", and "Save". A message preview pane on the right says "No message selected." and "Click any message in the list to preview it here or double-click to view it full size." The bottom of the screen features a taskbar with various icons and a system tray showing the date and time as "11:50 PM 01-03-2013".

Android versus iphone

Posted on 2013-02-25 10:51:50 by Nidhi

iPhones

The iPhone wasn't the first smartphone, but its arrival in 2007 changed things beyond recognition. Designer gadget and utilitarian tool, the iPhone wrapped existing features and functions into one desirable package. It's taken the rest of the world five years to catch up, but catch up it has.

The iPhone has very deep integration with Twitter and Facebook, making it easy to post status updates to either from directly within the operating system without having to dig too deep into the customization of the app.

Android

The first thing you will notice when shopping for an Android smartphone is the massive hardware selection. In addition, Android phones are highly customizable. For example, one of the top apps on the Google Play app store is an app making it easier to type by predicting your next word after synchronizing with your Google and Facebook accounts among others.

You'll also find unique apps you won't find on the Apple App Store. Google's app store has also caught up to Apple's in size. In October, Google Play said it also had more than 700,000 apps.

Comments:

Nidhi: This was my first post.
So any comment is welcome!
Posted on 2013-02-26 11:26:52

Sharmin: It was good.
But you could have elaborated more on the features.
Posted on 2013-02-26 11:28:48

Dipen: very informative!
Posted on 2013-02-26 11:29:17

Relation between web pages

Login:

- The user enters the user ID, password and selects one of the options: student or teacher.
- If the username, password and profession combination is correct, then the user is logged into the system.
- If the user has forgotten their password, they can ask the system to reset their password and email them the new password, which can be changed again after logging in.

Signup:

- The user enters the following details for signing up.
 - Student: First name, last name, user Id, email-address, password, mobile number, branch and year.
 - Teacher: First name, last name, user Id, email-address, password, mobile number, department, post and qualifications.
- If the user Id is an invalid Id, or an account with that Id already exists, then the signup process does not complete, else the user is sent an email with a link to activate their account.
- In case the activation email is not delivered, the user can ask the system to resend the email.

Personalized Homepage:

- The homepage provides links to the user profile, courses, documents, forums, blogs, etc.
- The homepage also displays notifications, upcoming deadlines, recent posts, recent discussions and user search option.

- A user receives a notification in the case of following events:
 - A document shared with the user.
 - A new version of a shared document uploaded.
 - Assignment added.
 - Results published.
 - Comment posted on a blog posted by d user.
 - Comment posted on a discussion started by the user.
 - Comment posted on a post on which the user had previously commented.
 - Comment posted on a discussion on which the user had previously commented.

Profile:

- A user can view his/her profile and edit as required.
- A user can view the profile of other users.

Documents:

- A user can upload and download personal or shared documents.
- The documents could be study material, exam solutions, notices, lecture schedule, etc.
- The user can also upload a revised version of a personal or shared document.

Courses:

- A Teacher can create a course for a particular branch and year.
- A Teacher can publish assignments and evaluate assignments.
- Evaluation involves adding a score and optional remarks.
- After the teacher has evaluated all submissions she can publish the results.
- A Student can view his/her list of courses and course details.
- A Student can submit assignments and view the results of assignments.
- In case the deadline has not yet gone, the student can resubmit an assignment.
- The scores of all assignments are visible to the entire class. However, the remarks can only be viewed by the concerned student.
